PART – 2 CHAPTER 02 ISSUE AND REDEMPTION OF DEBENTURES

Question 1:

What is meant by a Debenture?

ANSWER:

Debenture is derived from the Latin word 'debere' the meaning of which is to borrow. The issuance of the debenture is made in the form of the certificate which is under the seal of the company containing the contract for the repayment of of the principal amount to the certificate holder after the specified fixed amount of time. The interest of the same is to be paid in the regular intervals which is generally half year. Debentures are issued by any company to attain the long-term borrowings.

Question 2:

What does a Bearer Debenture mean?

ANSWER:

The Bearer Debenture is type of the debenture in which the company does not maintain the records of the debenture holders and thus the debentures are transferable in nature. The interest on such debentures is paid to the person who is able to produce the interest coupons with the specified bank.

Question 3:

State the meaning of 'Debentures issued as a Collateral Security'.

ANSWER:

There are some cases in which the financial institutions may ask for more security than merely the primary security and hence the company may have to issue debentures as the additional security. In the cases when the company makes the default in the repayment of the principal amount and the or the interest on the loan and hence the lenders have all the rights recover this due from the sale of the primary security and when the principal security is inefficient to repay the amount, the debentures may be used for the purpose of the repayment.

Question 4:

What is meant by 'Issue of debentures for Consideration other than Cash'?

ANSWER:

The issue of the debentures for consideration other than cash is referred to as the issuance of the debentures instead of the cash in return of the purchase of the asset. This is beneficial at the part of the company as any loan which is raised for the purpose of repayment will also invite the repayment of the interest on such loan. On the part of the receiver, he/she becomes entitled to any interest on the debentures if the payment of the debentures is not made on time.

Question 5:

What is meant by 'Issue of debenture at discount and redeemable at premium?

ANSWER:

When the issuance of the debentures is made below its par value (or the face value), but they are redeemed at a price which is higher than its par value, the issue of such debenture is termed as issue of debenture at discount and redeemable at premium. The difference between the price of the redemption and the price of the issue is regarded as the loss on the issue of debenture.

Example:

A 10% debenture of Rs 1,000 is issued at 5% discount and is redeemed at 10% premium.

Bank A/c Dr. 950

Discount on Issue of Dr. 50

Debenture A/c

Loss on Issue of Debenture Dr. 100

A/c

To Debenture A/c 1,000

To Debenture Redemption 100

Premium A/c

(Debenture issued)

Total loss = Payment made at redemption – Amount received on issue of debenture

$$1,100 - 950 = \text{Rs}\ 150$$

Question 6:

What is 'Capital Reserve'?

ANSWER:

Capital Reserve is referred to as the reserve which is created out of the profits of the capital nature. These are the profits which are made with the activities of the business which are not operational in nature. These reserves are utilized in order to meet the future capital losses which he business may incur. The Capital Reserve can be generated out of the following activities:

- i. Profit on redemption of debentures.
- ii. Premium on issue of debentures.
- iii. Premium on issue of shares
- iv. Profit on sale of fixed assets.
- v. Profit prior to incorporation, etc
- vi. Profit on reissue of forfeited shares.

Question 7:

What is meant by an 'Irredeemable Debenture'?

ANSWER:

The 'Irredeemable Debentures' considered to be those debentures which are not repayable and non redeemable during the life of the company are those debentures that are not repayable or redeemable by a company. These are only repayable when the company is to wind up and shut down its operations. These are also known as Perpetual Debentures, which means the debentures having the indefinite life.

Question 8:

What is a 'Convertible Debenture'?

ANSWER:

The convertible debentures are considered to be those debentures which can be converted into the equity shares after the particular period of the time. They are of two types: i. **Fully Convertible Debentures**: These are the types of the debentures which can be converted into the equity shares in the worth amount of the equivalent amount of the

ii. **Partly Convertible Debentures**: These are the types of the debentures whose conversion to the equity share is done in the partial manner as the partial amount is only converted.

Question 9:

debentures.

What is meant by 'Mortgaged Debentures'?

ANSWER:

The mortgaged Debentures are considered to be those debentures which are secured against the asset or the assets of any company. When the debentures are secured against the particular asset, than it is regarded as the fixed charge, while on the other hand if the debenture is secured against all the assets than it is considered to be the floating charge.

Question 10:

What is discount on issue of debentures?

ANSWER:

The discount on the issue of the debenture is referred to as the issuance of the debenture at the price which is lower than its face value. The difference between the price of the issue of the debenture and the face value of the debenture is a capital loss for the company.

Question 11:

What is meant by 'Premium on Redemption of Debentures'?

ANSWER:

The Premium on the Redemption of the Debentures is referred to as the situation in which the redemption of the debenture occurs at the more price than the face value of the debenture. Thus, the price which is the difference between the redeemed price of the debenture and the face value of the debenture is considered to be the Premium. This hence is the capital loss for the company. This is shown on the Notes of Accounts under the sub heading of the Other Long-Term Liabilities.

Question 12: How are debentures different from shares? Give two points.

ANSWER:

Basis of	Debentures	Shares
Comparisons		
1. Meaning	The debentures are	Shares are the part
	the part of loan and	of the capital and
	therefore the	hence the
	debenture holders	shareholders are the
	are considered to be	owners of the
	the creditors of the	company.
	company.	
2. Voting	The debenture	The shareholders
Rights	holders do not have	have the authority to
	the voting rights and	control the affairs of
	the control over the	the company and
	affairs of the	they can directly
	company	vote in the maters of
		the company.

Question 13:

Name the head under which 'discount on issue of debentures' appears in the Balance Sheet of a company.

The Discount on Issue of Debentures is regarded as a the capital loss for the business and hence as per the Companies Act it is shown into the Notes of Accounts:

- 1. It is shown in the Other Current Assets when the amount is written off within the 12 months of the specified date of the Balance Sheet.
- 2. When the amount will be written off after the period of the 12 months, than the Balance Sheet will record it in the Other Non Current Assets.

Question 14:

What is meant by redemption of debentures?

ANSWER:

The redemption of debenture refers to the repayment of the debentures by the company to its shareholders. In the other words the discharge of the liabilities by the repayment of the amount which is due to the debenture holders on the basis of the conditions made during the time of the issue of the debentures. The debentures may be redeemed at the par, premium or discount.

Question 15:

Can the company purchase its own debentures?

The company can purchase its debentures only if it is authorized to do so under the Articles of Association. The company purchases the debentures of its own for the following purposes:

- 1. To make the immediate cancellation of the liability of the debenture if the rate of the interest is higher than the market rate of the interest.
- 2. In order to make the investment so that the debentures can be sold at the higher price in the future to thereby earn profit for the company.

Question 16:

What is meant by redemption of debentures by conversion?

ANSWER:

The redemption of the debenture by conversion refers to the conversion of the debentures into the shares after the specified period of time by the debenture holder. The companies are required to maintain the Debenture Redemption Reserve in such cases because they are not required to pay any funds for the redemption of the debentures.

Question 17:

How would you deal with 'Premium on Redemption of Debentures'?

The premium on the redemption of the debenture is referred to the redemption of the debenture happens at the price which is more than it face value. The difference between the amount of the redemption and the face value of the debentures is considered to be the capital loss for the company and is further written in the Notes to Account under the sub heading of the Other Long Term Liabilities, the final balance of which is gone to the Non-Current Liabilities in the Equity and the Liabilities side of the balance sheet.

Question 18:

What is meant by 'Redemption out of Capital?

ANSWER: In the cases when the debentures are redeemed out of amount of the capital and further, no amount o profit is utilized for the purpose of redemption, than it is said to be the redemption made out of the capital. In such cases the ompany is not required to transfer the profits made out f the redemption to the Debenture Redemption Reserve.

Question 19:

What is meant by redemption of debentures by 'Purchase in the Open Market'?

ANSWER:

As per the Company's Act, in the case the companies must be authorized by the Article of Association to make the purchase of its own debentures in order for it to do so. The purpose of such purchase of the debenture by the company is as follows:

- 1. To make the immediate cancellation of the liability of the debenture liability, if the rate of interest on the debenture is higher than the market rate.
- 2. The company may purchase its own debenture for the purpose of investment so that it can sell them in the future when its prices rise.

Question 20:

Under which head is the 'Debenture Redemption Reserve' shown in the Balance Sheet?

ANSWER:

The Debenture Redemption Reserve (DRR) is shown as the Notes to Accounts of the Reserves and Surplus. The final balance is derived by the addition of the Debenture Redemption Reserve shown under the sub-heading of Shareholder's Funds in the Equities and the Liabilities side of the Balance Sheet of the company.

Question 21:

Explain the different types of debentures?

ANSWER:

The various different types of debentures are as follows:

1. On the basis of Security

a. Secured Debentures- These are the mortgaged debentures who are secured against the asset of the company to the financial institutions who provide the loan for the same. The secured debentures are considered to be the asset for any company. In the case

when the company may fail to repay the principal amount of the loan or is unable to repay the interest, then in such case the banks may recover their amount with such debentures.

b. *Unsecured Debentures*- The debentures which are unsecured are considered to be the unsecured creditors as they do not entail any security.

2. On the basis of Tenure

- a. *Redeemable Debenture* The debentures which are repayable after the particular specified time at the par or premium either in the installment or at par.
- b. *Irredeemable Debenture* The debentures which are irredeemable cannot made to be repaid before the expiry of the life of the company. Hence these debentures are redeemable only after the winding of the company.

3. On the basis of Mode of Redemption

- a. *Convertible Debentures* Convertible Debentures are those debentures that can be converted into equity shares after a specified period of time. These are of following two types:
 - i. Fully Convertible Debentures: There is no requirement to maintain the Debenture Redemption Reserve in this case as the entire amount of the convertible debentures is converted into the equity shares.
 - ii. *Partly Convertible Debentures*: These are considered to be types of shares in which the co0nverison of the debentures into the equity shares is done in the partial manner and the requirement o maintain the Debenture Redemption Reserve is

required only in the case of the non-convertible part of the debentures.

b. *Non-Convertible Debenture*- These are the debentures which cannot at all be converted into shares. These require the maintenance of the Debenture Redemption Reserve.

4. On the basis of Coupon Rate

a. **Zero Coupon Rate-** The zero coupon debentures are the types of debentures which do not contain any specific rate of interest and which are not issued on discount. The amount of interest is calculated by the difference of the face value with the price of the issue of debentures. The excess of such amount is known as the amount of interest. b. **Specific Rate-** The debentures which carry a specific rate of interest either fixed or floating is referred to be the debentures issued at specific rate.

5. On the basis of Registration

a. *Registered Debenture*- During the process of issuing debentures the company maintains the record of the name, address and other details of the debenture holder in the Register of the Debenture Holders of the company. b. *Bearer Debentures*- In the case when the company does not maintain the records of the debentures holders and thus such debentures are transferable in nature. The debentures issued in such cases are known as the Bearer Debenture. The interest in this case is paid to those who hold the coupons of interest which are attached to a specific bank.

Question 22: Distinguish between a debenture and a share. Why is debenture known as loan capital? Explain.

ANSWER:

Basis of	Shares	Debenture
Difference		
1. Owner or	The share holders are	The debenture
Creditor	considered to be the	holder is
	owners and thus they	considered to be the
	form the part of the	creditors and hence
	capital.	they form the part
		of the loan for the
		company.
2. Voting	The share holders	The debenture
Rights	have the rights of	holders do not have
	voting and thus they	the rights of voting
	exercise the control	and thus do not
	over the affairs of the	have the control
	company.	over the affairs of
		the company.
3. Returns	The share holders	The debenture
	receive the returns in	holders receive the
	the form of dividend.	return is the form
		of the interest.
4. Rate of	The rate of rate in the	The rate of the
Return	dividend is not fixed	interest is fixed in
	and hence it varies	the debentures and
	from year to year.	hence they remain

		same for every
		year.
5. Obligations	Dividend is	The interest in the
of Return	considered to be the	case of debentures
	appropriation of	is charged against
	profit. The dividends	the profit, the
	are not to be required	interest is thus
	to pay if the company	payable to the
	does not earn profit	debenture holders
	and is incurring loss.	even in the case
		when the company
		does not earn
		profits.
6. Repayment	The repayment of the	The amount of the
of Amount	amount of share is not	debenture is
	returned during the	returned as per the
	life time of the	terms and
	company	conditions of the
		issue.
7. Issue	The issue of shares at	There are no such
	discount need	restrictions for
	adherence to the	issuing debentures
	restrictions imposed	on discount.
	by the Section 79 of	
	the Company Act.	
8. Conversion	The shares are	The debentures can
	unconvertible in	be converted into
	nature and hence they	the shares.
	cannot be converted	
	into debentures.	

9. Risk	Shares are considered	The debentures are
	to be more risky than	secured when they
	debentures as these	are secured against
	are unsecured.	the assets.
10.	The payment is made	The payment to the

Priority	the settlement of all	is made on the
	the external liabilities	priority basis and
	which includes the	hence their
	debenture holders.	payment is settled
		before the share
		holders.

Question 23:

Describe the meaning of 'Debenture Issued as Collateral Securities'. What accounting treatment is given to the issue of debentures in the books of accounts?

ANSWER:

The meaning of the term collateral security implies the additional security in the addition of primary security. In certain situations or circumstances, the company may issue the issue the debentures as the additional security when the loan is taken from the financial institutions. Further, the lender who receives debenture as the security is not liable to pay the interest on them to the debenture holders. In any case when the company makes the fault at the part of the payment of the principal amount to such financial institution, the institution is empowered to recover the

amount from the primary security made before it. If the recovery from the primary security is not sufficient enough, the institution is empowered to recover the amount from the debentures as the additional security made before it.

Accounting Treatment

There are two manners in which the recording of this can be made:

1. No Entry

The no entry in the journal entry is made because no liability has been created. However as per the Revised Schedule-VI of the Companies Act, the issuance of the debentures as the collateral security is shown as Long term borrowings under the Non- Current liability on the Equity and Liabilities side of the Balance Sheet. Further, the loan so taken is mentioned in the Notes to Accounts of Long-Term Borrowings, and furthermore in the Cash and the Cash Equivalents the amount of loan which is received (in the case if it is in cash) is mentioned.

Example- Suppose Good Bus Ltd. issued 4,000 9% Debentures of Rs 100 each as collateral security to NBP bank for a loan of Rs 3,00,000.

Good Bus Ltd. Balance Sheet

Particulars	Note No.	Amount (Rs)
I. Equity and Liabilities		
1. Shareholders' Funds		
2. Non-Current Liabilities		
a. Long-Term Borrowings	1	3,00,000

3. Current Liabilities		
Total		3,00,000
II. Assets1. Non-Current Assets2. Current Assetsa. Cash and Cash Equivalents	2	3,00,000
Total		3,00,000

NOTES TO ACCOUNTS

Note No.	Particulars	Amount (Rs)
1	Long-Term Borrowings Loan (Secured by issue of 9% Debentures of Rs 4,00,000 as Collateral Security)	3,00,000
2	Cash and Cash Equivalents Cash at Bank	3,00,000

2. By Making Entry

The journal entry for the issuance of the debentures as the collateral security can be made.

During the time of Issue of Debentures as Collateral Security

Debenture Suspense A/c Dr. To Debenture A/c

(Debentures issued as collateral security)

As per the Revised Schedule VI of the Companies Act, Debentures which are issued as the collateral security shall be shown as the Long-Term Borrowings of the company under the heading of the Non-Current Liabilities of the Equity and Liabilities side of the Balance Sheet of Company. This method is distinct from the first method as in this method the debenture suspense account is maintained which is deducted from the account of the Debentures in the Notes to Accounts of the Long Term Borrowings.

Good Bus Ltd. Balance Sheet

Particulars	Note No.	Amount (Rs)
I. Equity and Liabilities		
1. Shareholders' Funds		
2. Non-Current Liabilities		
a. Long-Term Borrowings	1	3,00,000
3. Current Liabilities		
Total		3,00,000
II. Assets		
1. Non-Current Assets		
2. Current Assets		
a. Cash and Cash Equivalents	2	3,00,000
Total		3,00,000

NOTES TO ACCOUNTS

Note No.	Particulars	Amount (Rs)
1	Long-Term Borrowings	
	Secured:	
	Loan (Secured by issue of 9%	
	Debentures of	3,00,000
	Rs 4,00,000 as Collateral Security)	
	9% Debentures	
	(Issued as 4,00,000	
	Collateral	
	Security to Bank	
	against loan)	
	Less: (4,00,000)	_
	Debenture	
	Suspense	
	Account	
		3,00,000
2	Cash and Cash Equivalents	
4	Cash at Bank	3,00,000

Question 24:

How is 'Discount on Issue of Debentures' treated in the books of accounts? How will you deal with the 'discount in issue of debentures' when the debentures are to be redeemed in instalments?

In the case of the issuance of the debentures at the price below its face value, the debentures are said to e issued in the discount. The amount of discount is derived from the difference of the price of the issue and the face value of the debentures. This hence is considered to be the Capital Loss fo the company. This is shown in the Notes to Accounts as per the Revised Schedule VI of the Companies Act.

- 1. When the amount is to be written off within the 12 months from the date of the Balance Sheet, it is shown under the Other Current Assets.
- 2. When the amount is to be written off after the period of the 12 months from the date of the balance sheet, than the amount is shown under the Other Non-current Assets.

Accounting Treatment

For example, if a company has issued 10% debentures of Rs 6,00,000 at 5% discount redeemable annually by Rs 2,00,000 each year. The total amount of discount on Rs 6,00,000 debentures @ 5% is Rs 30,000, i.e. $(6,00,000 \times 5/100 = \text{Rs } 30,000)$. The accounting treatment for discount on issue of debentures(if it is to be written-off in 5 years) is:

<u>Year 1</u>: Amount to be written-off each year $= 30,000 \times 15 = 6,00030,000 \times 15 = 6,000$ - Shown in *Statement of Profit and Loss*Amount to be written-off in the next year = 6,000 - Shown as *Other Current Asset* under *Current Assets*

Remaining Amount to be written-off after next year = 30,000 - 6,000 - 6,000 = 18,00030,000 - 6,000 - 6,000 = 18,000 - 6,000

	Statement of Profit and Loss for year ended			
S. No.	Particulars Particulars	Note No.	Amount	
I	Revenue from Operations			
II	Other Income			
III	Total Revenue (I + II)			
IV	Expenses:			
	Amortisation Expenses			
	(Discount on issue of		6,000	
	debentures written-off)			

Extract of Balance Sheet as on March 31, 2013			
Particulars	Note No.	Amount (Rs)	
II. Assets			
1. Non-Current Assets			
(e) Other Non-Current Assets	1	18,000	
2. Current Assets			
(f) Other Current Assets	2	6,000	

NOTES TO ACCOUNTS

Note No.	Particulars	Amount (Rs)
1	Other Non-Current	
1	Assets	
	Discount of Issue of	18,000
	Debentures	10,000
2	Other Current Assets	
	Discount of Issue of	6.000
	Debentures	6,000

Year 2

Amount to be written-off

 $=30,000 \times 15=6,00030,000 \times 15=6,000$ - Shown

in Statement of Profit and Loss

Amount to be written-off in the next year = 6,000 - Shown as *Other Current Asset* under *Current Assets*Remaining Amount to be written-off after next year = 18,000 - 6,000 = 12,00018,000 - 6,000 = 12,000 - Shown as *Other Non-Current Asset* under *Non-Current Assets*

At the end of Year 5, the amount of discount on issue of debentures will be completely written off.

Question 25:

Explain the different terms for the issue of debentures with reference to their redemption.

ANSWER:

The redemption of the debentures can give rise to the following six situations:

- 1. Issue at Par, Redeemable at Par.
- 2. Issue at Premium, Redeemable at Par.
- 3. Issue at Discount, Redeemable at Par.
- 4. Issue at Par, Redeemable at Premium.
- 5. Issue at Premium, Redeemable at Premium.
- 6. Issue at Discount Redeemable at Premium.
- 1. **Issue at Par and Redeemable at Par-** In this case the redemption of the debentures are done in the face value of the debentures. The following journal entry is passed for the same:

Bank A/c Dr. (with the amount received)

To Debenture Application A/c (with the face value) (Debenture Application money received)

Debenture Application A/c Dr.
To Debenture A/c
(Application money transferred to Debenture Account)

2. **Issue at Premium and Redeemable at Par-** In this case the debentures are issued at premium and are redeemable at par. The amount of premium is considered to be the gain for

the company and thus it is credited in the journal entry which is as follows:

Bank A/c Dr.

To Debenture Application A/c (Debenture Application money received)

Debenture Application A/c Dr.

To Debenture A/c

To Securities Premium A/c (Debentures issued at premium and redeemable at par)

3. **Issue at Discount and Redeemable at Par-** In this case the issuance of the debentures are made at discount and they are redeemable at par. The discount is considered to be the loss for the company and hence it is debited in the Journal Entry for this entry which is as follows:

Bank A/c Dr.

To Debenture Application A/c (Debenture Application money received)

Debenture Application A/c Dr.

Discount on Issue of Debenture A/c Dr.

To Debenture A/c

(Debentures issued at discount and redeemable at par)

4. **Issue at Par and Redeemable at Premium-** In this case the issuance of the debentures is done at par and they are redeemable at premium. In this case the company does not incur any loss during the time of the issue of the debentures, but it faces the loss during the time of the redemption of the debenture. Thus, the following journal entry is to be passed in such case:

Bank A/c Dr.
To Debenture Application A/c
(Debenture Application money received)

Debenture Application A/c
Loss on Issue of Debenture

A/c

To Debenture A/c

Dr.

Dr. (with the amount of premium on redemption) (with the face value of the debentures)

To Premium on Redemption (with the amount of of Debenture A/c premium on redemption) (Debentures issued at par and redeemable at premium)

5. **Issued at Premium and Redemption at Premium-** In this case the debentures are issued and redeemable at premium. The following journal entry is passed in this case:

Bank A/c Dr.

To Debenture Application A/c

(Debenture Application money received)

Debenture Application A/c Dr.

Loss on Issue of Debenture Dr. (with the amount of

A/c premium on redemption)

To Debenture A/c (with the face value of the

debentures)

To Securities Premium A/c (with the amount of premium

on issue)

To Premium on (with the amount of premium

Redemption of Debenture on redemption)

A/c

(Debentures issued at premium and redeemable at premium)

6. **Issue of Discount and Redemption at Premium-** In this case the debentures are issued at discount and redeemable at premium. In the effect of such case, the following journal entry has to be passed:

Bank A/c Dr.

To Debenture Application A/c (Debenture Application money received)

Debenture Application Dr.

A/c

Loss on Issue of Dr. (with the amount of discount on

Debenture A/c issue *plus* amount of premium on

redemption)

To Debenture A/c (with the face value of the

debentures)

To Premium on (with the amount of premium on

Redemption of redemption)

Debenture A/c

(Debentures issued at

discount and redeemable at premium)

Question 26:

Differentiate between redemption of debentures out of capital and out of profits.

ANSWER:

Redemption of Debentures Out of Capital

• The redemption of the debentures out of capital is the case in which the redemption of the debentures happens out of the capital and there is no utilisation of profit for the process of redemption. Hence the company is not required to maintain the Debenture Redemption Reserve and no profits are required to be transferred to DRR.

- As per the guideline laid down by Securities and Exchange Board of India (SEBI) and the Section 117C of Company Act of 1956, the creation of DRR is mandatory (DRR). Hence it is impossible for the company to redeem the debentures purely out of the capital as it causes the reduction in the value of the assets. Following is the list of the companies who are exempted to maintain and create DRR:
- 1. Infrastructure companies (i.e. those companies that are engaged in the business of developing, maintaining and operating infrastructure facilities)
- 2. All those companies which can issue debentures with a maturity up to 18 months

Redemption of Debenture Out of Profits

- In this case the redemption of the debentures happens out of the profit and not from the capital of the company. Thus before the redemption of the debentures, the profits are transferred to the Debenture Redemption Reserve from the Profit and Loss Appropriation Account.
- As per the guidelines established by the Securities Exchange Board of India (SEBI), DRR is to be created mandatorily and the amount which is equal to 50% of the debentures issued must be transferred to it before the redemption of the debentures. The profits are thus transferred to the DRR before the redemption in this

manner which reduces the amount of the profit. Thus in this method, the profit or the loss is transferred to the DRR account from the Statement of the Profit or Loss. The working of this is shown in the Notes to Accounts of the Reserves and Surplus. The final balance is shown in the sub heading of the 'Reserves and Surplus' which is under the main heading of the Shareholder's Funds on the Equity and Liabilities side of the Balance Sheet of the company. At the last when all of the debentures are redeemed, the DRR account is supposed to be closed by transferring the amount to the General Reserve.

Question 27:

Explain the guidelines of SEBI for creating Debenture Redemption Reserve.

ANSWER:

The following are the main points of SEBI's guidelines for creation of Debenture Redemption Reserve (DRR).

- 1. All those companies which have a maturity date of more than 18 months are required to maintain the Debenture Redemption Reserve.
- 2. An amount which is equal to the 50% of the amount of the debenture issued must be transferred to DRR mandatorily before the process of the redemption of the debentures begins.
- 3. The creation of the DRR is only applied to the debentures which are non-convertible in nature and for the parties which are non convertible for the Partly Convertible Debentures.

- 4. The withdrawals from the Debenture Redemption Reserve can be made only after when the 10% of the debentures are redeemed.
- 5. 50% of the debentures which are issued shall be redeemed out of the profits which have to be transferred to the DRR. The remaining 50% of the debentures which are issued can be redeemed either from the capital or from the profits. Thus the redemption of the debentures cannot be done purely out of the capital.
- 6. The following companies are exempted to maintain the DRR:
 - The Infrastructure companies (i.e. those companies which are engaged in the business of maintaining and operating the infrastructure facilities)
 - A Company that issues debentures with a maturity up to 18 months.

Question 28:

Describe the steps for creating Sinking Fund for redemption of debentures.

ANSWER:

The steps involved in the creation of the Sinking Fund for the redemption of the debentures are mentioned with the help of the example which is given below:

A Company issued 10% Debentures of Rs 5,00,000 for 3 years. The investment is expected to earn 6% p.a. The Sinking Fund table shows that 0.31411 invested annually at 6% amount to Rs 1 in 3 years.

- **Step 1**: The amount of the installment is to be calculated every year for the investment with the help of the Sinking Fund table. Like in the example Rs 1,57,055 (i.e. $0.31411 \times 5,00,000$) is required every year.
- **Step 2**: The amount of installment which is calculated in the above mentioned step is transferred to the Debenture Redemption Fund (Sinking Fund) by debiting from Profit and Loss Appropriation Account.
- **Step 3**: In the first year, the above installment is invested to yield amount required for redemption of debenture by debiting Debenture Redemption Fund Investment Account.
- **Step 4**: The interest on investment is received on half yearly or annual basis. In the example, the interest of Rs 9,423 is

received on annual basis.

- **Step 5**: The total amount of investment, i.e. interest plus instalment is invested in the subsequent year. In the example, Rs 1,66,478 (i.e. Rs 1,57,055 + Rs 9,423) is invested in the next year.
- **Step 6**: Repeat the Step 2, 3, 4 for each subsequent years up to the end of the life of the debenture. In the year of redemption, the instalment (i.e. the last instalment) will be debited to the Profit and Loss Appropriation Account but will not be invested.
- Step 7: In the year of redemption, the investment is sold off.
- **Step 8**: The profit (loss) on the sale of the investment is transferred by debiting (crediting) Debenture Redemption Fund Investment Account to the Debenture Redemption Fund Account.
- **Step 9**: The payment to the debenture holder is made.

Step 10: The balance of Debenture Redemption Fund Account *if any*, is transferred to the General Reserve.

Question 29:

Can a company purchase its own debentures in the open market? Explain.

ANSWER:

The companies are allowed to purchase their own debentures if it authorized by its Article of Association. The purpose for which the companies buy their own debentures are as follows:

- 1. For making the immediate cancellation of debenture as a liability. This is done in the case if the rate of interest rate on debenture is higher than the rate of interest of the market.
- 2. Companies can also purchase their own debentures in order to make the investments which they could sell later at the price which is higher to earn the profit.
- 3. Companies may purchase their own debentures at the discount or at the premium for the purpose of cancellation.

1. If Debentures are purchased at Discount for Cancellation

When the company purchases its own debentures at discount for cancellation, then the following Journal entries are recorded.

Own Debentures A/c Dr.
To Bank A/c

(Own debentures purchased)

Debentures A/c
To Own Debentures A/c
To Profit on Cancellation
of Own Debentures A/c

Debentures A/c

To Own Debentures A/c (Own Debentures cancelled)

Dr. (with the face value)
(with the difference between
Amount paid and face
value)

Question 30:

What is meant by conversion of debentures? Describe the method of such a conversion.

ANSWER:

The conversion of the debentures is referred to the process of conversion of the debentures into shares after the expiry of the debenture after the specified period of time. The companies are not required to pay the funds for the process of redemption and hence there is no need to maintain the Debenture Redemption Reserve. The new shares that can be issued at par, premium or at the discount.

Accounting Treatment

1. For amount due to debenture holders

Debenture A/c Dr.

To Debenture holders A/c

(Debentures redeemed)

2. For discharging liability to the debenture holders

Debenture holders A/c Dr.

To Shares/Debentures (New)

A/c

(Debenture holder amount discharged)

Question 31:

G.Ltd. issued 75,00,000, 6% Debenture of Rs 50 each at par payable Rs 15 on application and Rs 35 on allotment, redeemable at par after 7 years from the date of issue of debenture. Record necessary entries in the books of Company.

ANSWER:

Question 43:

Journalize the following:

- (i) A debenture issued at Rs 95, repayable at Rs 100
- (ii) A debenture issued at Rs 95, repayable at Rs 105 and
- (iii) A debenture issued at Rs 100, repayable at Rs 105.

The face value of debenture in each of the above cases is Rs 100.

ANSWER:

S.No. Particulars	L.F.	Debit	Credit
-------------------	------	--------------	--------

			Amount Rs	Amount Rs
(i)	Bank A/c Discount on Issue of Debenture A/c To Debenture A/c (Debenture of Rs 100 issued at Rs 5 discount with the term repayab Rs 100)	_	95 5	100
(ii)	Bank A/c Loss on Issue of Debenture A/c To Debenture A/c To Premium on Redemption of Debentures (Debenture of Rs 100 issued at a discount of Rs 5 and with the term repayable at Rs 105)		95 10	100 5
(iii)	Bank A/c Loss on Issue of Debenture A/c To Debenture A/c To Premium on Redemption of Debenture A/c	Dr. Dr.	100 5	100

	ļ

Question 44:

A.Ltd. issued 50,00,000, 8% Debenture of Rs 100 at a discount of 6% on April 01, 2009 redeemable at premium of 4% by draw of lots as under: 20,00,000 Debentures on March, 2011 10,00,000 Debentures on March, 2013 20,00,000 Debentures on March, 2014 Compute the amount of discount to be written-off in each year till debentures are paid. Also prepare discount/loss on issue of debenture account.

ANSWER:

Loss on issue of debenture = 6% (discount on issue) + 4% (premium on redemption) = 10%

$$=50,00,000 \times 100 \times \frac{10}{100} = 5,00,00,000$$

Question 45:

A company issues the following debentures:

- (i) 10,000, 12% debentures of Rs 100 each at par but redeemable at premium of 5% after 5 years;
- (ii) 10,000, 12% debentures of Rs 100 each at a discount of 10% but redeemable at par after 5 years;
- (iii) 5,000, 12% debentures of Rs 1,000 each at a premium of 5% but redeemable at par after 5 years;

- (iv) 1,000, 12% debentures of Rs 100 each issued to a supplier of machinery costing Rs 95,000. The debentures are repayable after 5 years; and
- (v) 300, 12% debentures of Rs 100 each as a collateral security to a bank which has advanced a loan of Rs 25,000 to the company for a period of 5 years. Pass the journal entries to record the: (a) issue of debentures; and (b) repayment of debentures after the given period.

ANSWER:

Question 46:

A company issued debentures of the face value of Rs 5,00,000 at a discount of 6% on April 01, 2012. These debentures are redeemable by annual drawings of Rs,1,00,000 made on March 31 each year. The directors decided to write off discount based on the debentures outstanding each year.

Calculate the amount of discount to be written-off each year. Give journal entries also.

ANSWER:

Journal

				Debit	Credit
Date	Particulars		L.F.	Amount	Amount
				Rs	Rs
2012					
Apr 1	Bank A/c	Dr.		4,70,000

2015-16	40,000	1	600
		12	Rs 7,200

Question 48:

B.Ltd. issued debentures at 94% for Rs 4,00,000 on April 01, 2011 repayable by five equal drawings of Rs 80,000 each. The company prepares its final accounts on March 31* every year.

Indicate the amount of discount to be written-off every accounting year assuming that the company decides to write off the debentures discount during the life of debentures. (Amount to be written-off: 2011 Rs 6,000;

2012 Rs 6,800; 2013 Rs 5,200; 2014 Rs 3,600; 2015 Rs 2,000; 2016 Rs 400).

*It should be December 31

ANSWER:

Amount of discount to written off every year

In 2011 = Rs 6,000

In 2012 = 2,000 + 4,800 = Rs 6,800

In 2013 = 1,600 + 3,600 = Rs 5,200

In 2014 = 1,200 + 2,400 = Rs 3,600

In 2015 = 800 + 1,200 = Rs 2,000

In 2016 = Rs 400

Question 51:

On January 01, 2012, X. Ltd. issues 5,000, 8% Debentures of Rs 100 each repayable at par at the end of three years. It has been decided to set up a cumulative sinking fund for the purpose of their redemption. The investments are expected to realise 4% net. The Sinking Fund Table shows that Rs 0.320348 amounts to one rupee @4% per annum in three years. On December 31, 2015 the balance at bank was Rs 2,42,360 and the

investments realised Rs 3,25,000. The debentures were paid off.

Give journal entries and show ledger account. ANSWER:

Question 52:

On April 01, 2014 a company issued 15% debentures of Rs 10,00,000 at par. The debentures were redeemable at par after three years from the date of Issue. A sinking fund was set up to raise funds for redemption of debentures. The amount for the purpose was invested in 6% Government securities of Rs 100 each available at par. The sinking fund table shows that if investments earn 6% per annum, to get Re.1 at the end of 3 years, one has to invest Rs 0.31411 every year together with interest that will be earned. On March 31, 2017, all the Government securities were sold at a total loss of Rs 6,000 and the debentures were redeemed at par. Prepare Debentures Account Sinking Fund Account, Sinking Fund Investment Account and Interest on

Sinking Fund Investment Company closes its books of accounts every year on March 31. ANSWER:

Question 53:

On April 01, 2016 the following balances appeared in the books of Z. Ltd.:

Particulars	Rs
6% Debentures	1,00,000
Debentures Redemption Reserve Fund	80,000
D.R. Reserve Fund Investments	80,000

The investments consisted of 4% Government securities of the face value of Rs 90,000.

The annual instalment was Rs 16,400. On March 31, 2017, the balance at Bank was Rs 26,000 (after receipt of interest on D.R.Reserve Fund Investment). Investments were realised at 92% and the Debentures were redeemed. The interest for the year had already been paid.

Show the ledger accounts affecting redemption.
